CCAS TECH

LinkedIn company page: everything to paste

Every field LinkedIn asks for, written in the CCAS Tech voice and ready to copy. The shaded boxes with an orange edge are the text to paste. Character counts are shown against LinkedIn's limits.

How to use this

1. Read **Confirm before you publish** below and fill in the missing facts.
2. Open your LinkedIn company page and work down the sections in order.
3. Select the text in an orange-edged box, copy, paste. When you paste from a PDF, line breaks can appear in the middle of sentences; the companion **.txt file** has the same text with clean line breaks if that happens.

Confirm before you publish

- Website domain. The website and brand kit use ccastech.com, but your Microsoft 365 account uses ccas-tech.com. Decide which is the real public domain and make sure the website, email (info@...) and LinkedIn all use the same one.
- Facts to add: year founded, headquarters address, company size, phone number. None of these were available, so they are marked TODO and left out of the copy.
- Service promises used in the copy: "vetted consultants", "clear contracts", "a recruiter who stays close". Check the team can keep these before publishing.
- Numbers and names deliberately NOT used: the website currently shows 430K projects, 170+ customers, 200+ awards and a list of well-known company names. They came from the design prototype and are unverified. Do not put them on LinkedIn until confirmed.
- Legal. LinkedIn pages are public. If you mention clients, certifications or partnerships later, make sure you have permission and proof.

01 Page details

Fields on the create-page form and the page's About tab. Items in red are facts only the company can supply.

Page name	CCAS Tech	Create page → Name
Public URL (custom)	linkedin.com/company/ccastech	Create page → Public URL. Use this if available; otherwise ccas-tech
Website	https://ccastech.com Confirm this is the live domain (see "Confirm before you publish")	Page details → Website
Industry	Staffing and Recruiting Alternative: IT Services and IT Consulting. Staffing and Recruiting is recommended because it matches how people search for and apply to staffing firms.	Page details → Industry
Company size	TO BE FILLED IN **Select the real headcount range (for example 11-50 employees)**	Page details → Company size
Company type	Privately Held Confirm (Privately Held / Partnership / Self-Employed / Public Company)	Page details → Company type
Year founded	TO BE FILLED IN **Add the real year**	Page details → Year founded
Headquarters / location	TO BE FILLED IN **Add the real street address, city, state and ZIP**	Page details → Locations
Phone	TO BE FILLED IN **Optional. Add a monitored business number**	Page details → Phone
Contact email	info@ccastech.com Confirm this mailbox exists and is monitored	Mentioned in About and posts
Custom button	Contact us → https://ccastech.com/contact/ Alternative: Learn more → https://ccastech.com/services/	Page → Custom button
Hashtags (up to 3)	#ITStaffing #TechTalent #ITConsulting	Page details → Hashtags

02 Tagline

Shown under the company name. Limit 120 characters.

RECOMMENDED — 74 / 120 CHARACTERS

> IT consulting and staffing. The right expert, connected to the right team.

ALTERNATIVE 1 — 102 / 120 CHARACTERS

> Vetted IT consultants. Clear contracts. Cloud, data, security and software talent, ready when you are.

ALTERNATIVE 2 — 96 / 120 CHARACTERS

> USA-based IT consulting and staffing: highly skilled technology consultants, ready when you are.

03 About / Overview

The long description on the About tab. Limit 2,000 characters. The first two or three lines show before "see more", so they carry the message.

PASTE INTO: EDIT PAGE → OVERVIEW

1,217 / 2,000 CHARACTERS

CCAS Tech is a USA-based IT consulting and staffing company that connects businesses with highly skilled technology consultants.

The right expert, connected to the right team.

We start by understanding the work. Then we match consultants who have done it before, agree clear contracts, and stay close once the engagement starts. Vetted consultants. Clear contracts.

WHAT WE PLACE
• Technology talent: Data Science, Mobile App Development, Full-Stack and Web Development, DevOps, Cybersecurity, Information Security, Database Administration, Network Architecture and Administration, Business Intelligence.
• Management expertise: Program Delivery, People & Operations, Financial Management, GTM & Product.

INDUSTRIES
Technology, E-commerce, Banking, Finance, Insurance and Marketing.

HOW WE WORK
• Contract: a defined scope and term for a project, a gap or a peak.
• Contract-to-hire: work with a consultant first, then convert once it is the right fit.
• Direct hire: we find, vet and present permanent candidates, and you make the offer.

HIRING? Tell us the role and the timeline: https://ccastech.com/contact/
TECHNOLOGY CONSULTANT? Join our network: https://ccastech.com/consultants/
Email: info@ccastech.com

04 Specialties & hashtags

Add specialties one at a time (up to 20). Hashtags: up to 3.

05 Logo & banner files

These are in the brand asset kit you already have (the ZIP). Folder paths below are inside that kit.

Logo (square, 400 x 400 minimum 300 x 300)	`brand-assets/05-social/profile-picture/ccas-tech-avatar-navy-800.png` Navy tile, white arcs, orange point. Alternatives in the same folder: -white-, -orange-.
Company cover banner (1128 x 191 displayed)	`brand-assets/05-social/cover-banners/ccas-tech-linkedin-company-cover-2256x382.png` Use the 2256 x 382 file (2x) for the sharpest result. A 1128 x 191 version is in the same folder. Keep the logo in the centre-safe area.
Personal banner for team members (optional)	`brand-assets/05-social/cover-banners/ccas-tech-linkedin-personal-banner-3168x792.png` For staff who want to match the company page on their own profiles.

06 Short description

Use for LinkedIn employee profiles, partner directories, event listings and press boilerplate.

ABOUT US, SHORT — 212 CHARACTERS

> CCAS Tech is a USA-based IT consulting and staffing company that connects businesses with highly skilled technology consultants. Vetted consultants. Clear contracts. The right expert, connected to the right team.

EMPLOYEE HEADLINE SUGGESTION (PROFILE) — 53 / 120 CHARACTERS

> [Job title] at CCAS Tech | IT consulting and staffing

07 Five ready-to-post updates

Publish Post 1 first and pin it. Space the others over about two weeks. Each is well under the 3,000-character post limit.

POST 1: INTRODUCTION (PIN THIS ONE) — 505 / 3,000 CHARACTERS

CCAS Tech is on LinkedIn.

We are a USA-based IT consulting and staffing company. We connect businesses with highly skilled technology consultants: the right expert, connected to the right team.

What to expect from us:
• Vetted consultants
• Clear contracts
• Plain language, no jargon

Hiring for cloud, data, security or software roles? Tell us the role and the timeline: https://ccastech.com/contact/

Follow this page for roles, insights and news from the team.

#ITStaffing #TechTalent #ITConsulting

POST 2: HOW WE WORK — 521 / 3,000 CHARACTERS

How we work, in three steps.

1. Tell us what you need. Share the role, the stack and the timeline.
2. Meet vetted consultants. We screen for technical depth and fit, then send a short list of people we would put on our own team.
3. Start with clear contracts. Rates, terms and start date are agreed up front. Your consultant gets to work, and we stay close.

Contract, contract-to-hire or direct hire: pick the model that fits the work.

Need a specialist? https://ccastech.com/services/

#ITStaffing #Hiring #TechTalent

POST 3: FOR CONSULTANTS

417 / 3,000 CHARACTERS

Technology consultants: we would like to know you.

If you build, secure or run technology for a living, join the CCAS Tech network. Tell us what you do best and we will bring roles that fit.

What you get:
• Roles matched to your skills
• Clear contracts: rate, term and scope in writing before you start
• A recruiter who stays close

Apply here: https://ccastech.com/consultants/

#ITJobs #ITConsulting #TechTalent

POST 4: SKILLS WE PLACE

463 / 3,000 CHARACTERS

The skills we place:

Data Science · Mobile App Development · Full-Stack Development · Web Development · DevOps · Cybersecurity · Information Security · Database Administration · Network Architecture · Business Intelligence

Plus management expertise: program delivery, people and operations, financial management, and go-to-market and product.

Looking for something specific? Tell us the role: https://ccastech.com/services/

#DevOps #Cybersecurity #DataScience

POST 5: INDUSTRIES

393 / 3,000 CHARACTERS

Sector experience cuts ramp-up time.

We place IT consultants who already know the work and the rules of their industry: technology, e-commerce, banking, finance, insurance and marketing.

Regulated or not, the standard is the same. We find out what your sector expects before we send anyone.

See the sectors we support: https://ccastech.com/industries/

#ITConsulting #TechHiring #ITStaffing

08 Setup checklist

1. Sign in to LinkedIn with a personal profile that will be an admin. A company page cannot exist without at least one personal admin.
2. Click "For Business" (top right, grid icon) → "Create a Company Page" → "Company". If a page already exists, ask the owner to add you as a Super admin instead.
3. Paste the name, public URL, website, industry, size and type from Section 1. Add the logo and tagline. Tick the box confirming you are authorised, then "Create page".
4. Open the page as admin → "Edit page" (or Admin tools → Edit page). Paste the About text, add specialties, location, phone, hashtags and the custom button. Upload the cover banner.
5. Add at least two admins (one can leave or lose access) from Admin tools → Manage admins.
6. Publish Post 1 and pin it, then Posts 2 to 5 over the next two weeks (not all on one day).
7. Invite your team to follow the page and add "CCAS Tech" as their current employer. Share the page link in email signatures and on business cards.
8. Tell us the final LinkedIn URL so it can be added to the website footer (src/data/site.ts → linkedin) and the other website pages.

09 Voice guide

From the CCAS Tech brand guidelines. Keep every future post in this voice.

Expert. Reliable. Connected. Direct. Plain language, no jargon for its own sake, no hype.

We say

We place senior cloud engineers in 10 days. (Only use a number like this if it is true.)

Talk to a specialist today.

Vetted consultants. Clear contracts.

We avoid

~~Leveraging synergistic talent paradigms.~~

~~Best-in-class, world-leading rockstars!!!~~

~~Contact us for more information.~~

LinkedIn field limits and menu names are correct at the time of writing and LinkedIn changes its interface from time to time. Generated for CCAS Tech from the website and brand guidelines.
